

Palomar 60" Focal Plane

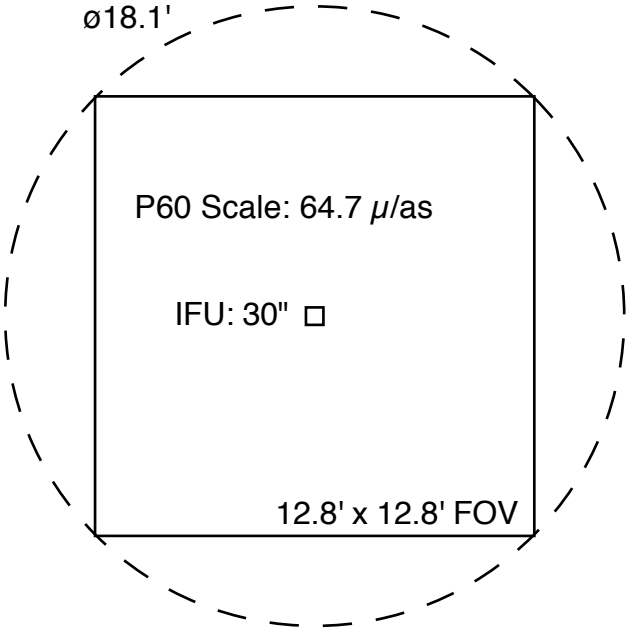

Unvignetted Field:

ø18.1'

P60 Scale: $64.7 \mu/\text{as}$

IFU: 30" □

12.8' x 12.8' FOV

A diagram illustrating the Palomar 60 inch focal plane. It features a large dashed circle representing the unvignetted field, with a diameter of 18.1 feet. Inside this circle is a solid square representing the IFU field of view, which is 12.8 feet by 12.8 feet. The IFU is labeled as 30 inches. The P60 scale is given as 64.7 micrometers per arcsecond.
